

Rules

Choose the difficulty level: from easy (, green)
to very hard (, black).

Take a card of the chosen level and find the solution.

The explanation of the symbols:

	Find the element that doesn't belong in the pattern.
	Find the missing element.
	Move 2 sticks
	Remove 3 sticks
	to create
	3 equal squares.
	a correct equation.

    Example: move 3 sticks to create 4 equal triangles.

To see the video solution:

1. Download the "Logic Cards" app.
2. Scan any card.
3. Enjoy the animated solution!
